'PUT AMERICANISM ABOVE PARTY LINES'

KEY NOTE OF ADDRESS LAST NIGHT BY A. M. HYDE.

SERVICE FLAG LOWERED

George Hartman and E. C. Braniger, Commander of G. A. R. and American Legion in Charge Ceremony

A plea for better Americanism was the key note of the address given last night at the First Methodist church by Arthur M. Hyde of Trenton, at a special demobilization ceremony for the church service flag.

Following an appropriate musical program, Dr. Gilbert S. Cox, pastor, made a short talk explaining the significance of the flag and that the cause and spirit for which it stood not be allowed to die but should be kept alive in the hearts of the people, after which the flag was lowered by George Hartman, commander of the G. A. R. and Dr. E. C. Braniger commander of the American Legion.

A permenant record of all the names of the soldiers represented by the stars on the flag will be placed upon a memorial art record to be made by the are department of the State Teachers college and will be hung in the church.

A big crowd was present at the services and the members of the G. A. R. and W. R. C. attended in a body.

Mr. Hyde is candidate for the nomination of governor on the Republican ticket is one of the most widely known men in this section of the state and an excellent speaker. The main point of his talk were the importance of continuing the fight for civilization and democracy and that demobilizing the men from the army did not mean their demobilization from their country's service. Mr. Hyde also urged upon every one to appreciate the responsibility of their citizenship in having a government by the people and appealed for a higher use of this responsibility to put Americanism and the good of country ahead of party lines.

Mr. Hyde has been campaigning in the Third Congressional district during the past week for the Republican candidate, John E. Frost. Mr. Hyde spoke at Stanberry Saturday night and was brought to Maryville after that meeting by Rev. Gilbert S. Cox, Fred Hull and John Sewell. Arthur Brewer, court stenographer, who took down the speech of Senator Hiram Johnson at Stanberry Saturday night, returned home with the party.

BIG ATHLETIC PEP ASSEMBLY TONIGHT

COLLEGE ASSOCIATION TO GIVE BANQUET FOR SIXTY.

4 GAMES FOR B. B. TEAM

Leave Tonight Kirksville, Games With Central College, Warrensburg and Kansas City Polytechnic Follow.

The Athletic association of the State Teachers college will entertain the athletic organizations of the college with a banquet tonight at the Bainum hotel. The affair is a general "pep" festival for the organizations and an enthusiastic send off for the college basket ball team which leaves tonight on a four game trip that will keep away from the city until Saturday.

The first game of the four will be played tomorrow at Kirksville with the Kirksville college team, the second with the Central college team at Fayette on Wednesday, the third with Warrensburg Teachers college at Warrensburg on Thursday and the fourth with the Kansas City Polytechnic at Kansas City on Saturday.

The college line up under coach Rice will include Richards, Wells, King Puckett, Adams, Stewart, Egley and Sawyers.

Coach Rice will be toastmaster at the banquet tonight which will be served at 6:30 o'clock. The crowd will adjourn at 9:20 to escort the basket ball team to the train. The guests will numbers about sixty and will include the girls basket ball team, the basket ball and foot ball men and leter men, coach director and others of the athletic association.

Of the two outside games played so far this season, the college team lost the first to the K. C. Polytechnic on Jan. 16 in a score of 18 to 20 and won the second played with the Tarkio college on Jan. 23 with a score of 18 to 14. Both games were played on the college court.

The next game to be played after the present trip will be at Maryville on February 12, between the college "Bear Cats" and Warrensburg college teams.

To the Farmers of Nodaway County

This article is intended to acquaint the farmers of Nodaway County with the great Farm Club Movement which has now spread into more than 80 of our 114 counties and which has a membership of approximately 50,000 of the most progressive farmers in Missouri. No doubt the reader has heard of the Farm Clubs. When they first started out several years ago there were many who believed they would prove another "flash in the pan" as so many farm organizations have in the past. But today they are not only beginning to grip the state with bands of steel, but some of the foremost farm journals in the country profess to believe that the Farm Clubs of Missouri present the long sought for plan of farm organization and hence are seeking to introduce them into other states.

What is the Farm Club plan, you ask? In the first place don't get it into your head that it is a "Farmers' Store" movement. On the contrary, the Farm Clubs are friendly to the Country Town and hence their Constitution and By-Laws throw a mantle of protection around such leading lines of merchandise as groceries, clothing, dry goods, hardware, shoes, farm implements, lumber, etc. The Farm Clubs however do take over such incidental lines as flour, the different kinds of feed, such as bran, shorts, cotton seed meal and cake, linseed oil meal, tankage, cattle, hog and poultry feeds, commercial fertilizers, binder twine, farm seeds, silos, coal, salt, automobile tires, tubes, etc.—in short, within a few exceptions the commodities taken over are such as usually constitute side lines with a grain elevator and thus the great staple lines of merchandise which constitutes the backbone of the Country Town are left unmolested.

But the real purpose of the Farm Clubs is revealed in their slogan, "Production cost, together with a reasonable profit for the fruits of the farmer's sweat and toil." In short, it is the first time in the history of American Agriculture that a farmers' organization has ever deliberately started out to get control of what the farmer produces in order that he may no longer be compelled to "pay the other fellow's price for the things he buys and accept the other fellow's price for the fruits of his yearly toil." Here you have the Farm Club "faith" in a nutshell—and this is the reason why intelligent farmers from one end of Missouri to the other are flocking to this new organization by the thousands. And the plan of procedure is very simple. The Farm Clubs do not employ paid organizers because they believe that farmers have sense enough to organize themselves, once the right kind of a plan is placed in their hands—and hence all that is necessary is to address a letter to the Missouri Farmers' Association, Columbia, Mo., when literature and complete instructions will be supplied free of charge. Then the interested farmers call a school house meeting and organize a Farm Club. Usually a few leading farmers from the adjoining districts are invited in so they may perfect Clubs also. From the very start the idea is to get 75% or 80% of the farmers around a given shipping point into the organization immediately—and frequently this is done in two or three weeks' time. Then as soon as a given county has 1,000 or more members, a mass meeting is held and at this time a County Farmers' Association is formed with a paid County Secretary in charge—and this Secretary looks after the interests of all the Clubs in his County. In the meantime, the Missouri Farmers' Association, the parent organization, is the "Big Stick" which drives the big deals and fights the larger battles of the Clubs of the entire state—making all in all the most compact and effective farmers' "machine" ever developed in the United States.

Money in the Farmers' Pocket.

And now we will assume that 75% or 80% of the farmers of your community have been brought into the Farm Clubs, when the following program is started in motion: First, remember that all Farm Club members, as soon as school district Clubs are organized are placed in immediate position to buy their flour, mill feed and other feeds, coal, tankage, salt, commercial fertilizers, binder twine, automobile tires and tubes at the wholesale price. At this writing we are buying the best of flour at $12.50 per barrel delivered anywhere in Missouri. Compare this with the retail price you are now paying. Also we quote shorts at $2.45 per cwt. and bran at $2.15 per cwt. delivered at Missouri points. We are delivering the best of Illinois coal at around $5 per ton—depending upon the length of freight hauls. We are now placing spring orders for all the leading brands of commercial fertilizers and can save you

TO THE FARMERS OF NODAWAY COUNTY

(Continued from page 1.)

several dollars per ton. Also we are now taking orders for the best of Standard binder twine and will furnish a carload to the farmers of your community at ¼c per pound less than your local dealers themselves will have to pay. Last year we shipped in over 1,500,000 pounds of this twine at 21¾c per pound. What did you pay? The usual retail price of a set of Ford automobile tires is $71.50. We furnish them for $52.59. The usual price of a set of Dodge tires is $93.40, while we furnish them for $67.75—and our tires are one of the best makes on the market and are guaranteed for 6,000 miles. We can supply other tires and tubes at like reductions. Now since it only costs a farmer $2.50 per year to belong to a Farm Club, can you imagine that it takes much "persuading" to get him to take advantage of the above savings?

The Live Stock Shipping Association.

But the above is merely looked upon as "chicken feed" in the great Farm Club plan. Perhaps the first real constructive part of the program should be considered the organization of a Live Stock Shipping Association—and the plan is simple. The Clubs at a given shipping point adopt a Constitution and By-Laws provided by the Missouri Farmers' Association, select a Board of Directors and appoint as Shipping Manager some farmer who has a good knowledge of live stock. On certain days in the week this Manager receives the stock which the members have ready for market. Each man's hogs, cows, heifers, bulls or sheep are clipped with a pair of shears so they can be identified at the Stock Yards where each member's stuff is sold on its merits—and thus he receives a check for what his animals brought at the Stock Yards, less his part of the shipping expense, rather than what it pleased the local "hog buyers" to offer. We have scores of these Shipping Associations in operation and experience has shown that our members realize from 50c to $1.50 per cwt. more for their hogs and from $2 to $3 per cwt. more for butcher stuff than where farmers continue to sell to the local stock buyers. Wouldn't you like to belong to such a Shipping Association in your community?

Big Profits in Poultry.

Next comes a Produce Exchange which takes over the handling of eggs, live poultry and cream—and here is a plan which alone during 1919 put not less than a cold million dollars in extra profits into the pockets of our members. Usually the Exchange is capitalized at from $3,000 to $5,000—each member buying one or more shares of stock at $10 each. Then some bright young farmer is installed as Manager and the eggs and live poultry are consigned to one of the big wholesale firms which are handling this Department for the Farm Clubs. All over Missouri where our Exchanges are in operation we have advanced the price of eggs from 5c to 10c per dozen. As this is being written a private dealer at Conception Junction, Missouri, where we recently established an Exchange, is paying 65c per dozen for eggs while at another point 10 miles distant where the same dealer has a house but where we have not yet established an Exchange, he is only paying 55c per dozen. So during December many farmers' wives sold their turkeys for from 25c and 32c per pound, while the Farm Club Exchanges paid as high as 45c per pound. Is there any earthly sense for the farmers of Missouri to longer submit to this robbery when the Farm Clubs offer them a way out and when $3,000 will finance an Exchange? Likewise we have a contract with several large creameries which nets our Exchanges 3c per pound more for butterfat than non-members receive. Usually our Exchanges carry flour, mill feed, etc., at those points which do not justify a Farmers' Elevator and they also ship out green hides and furs and thus obtain the wholesale price on these items. The poultry products of Missouri are worth something like $100,000,000 annually—and our farmers are literally sacrificing millions of dollars every year to the present system. Do you and your neighbors want to keep on losing your share of these millions?

The Farm Club Grain Elevators.

Next—and as important as anything else—are the Farm Club Grain Elevators. During the last twelve months, something like 70 points were taken over and the present rate of progress the Farm Clubs will be in possession of 75% of the Grain Elevators of Missouri at the end of the next 18 months. Wherever the Farm Clubs shipped last year's wheat crop our members netted from 10c to 20c per bushel more than other farmers received where the local dealers had things their own way. In such counties as Chariton, Clark, Scotland, Greene, Saline, Polk, Montgomery and Franklin we have already taken over the lion's share of the Elevators, while many other counties are rapidly following suit. And here is a typical example which shows what the farmer is losing in the sale of his grain: In the winter of 1919 we organized a Farm Club Elevator at Triplett, Missouri, with a paid up capital of $7,500. Then the old private Elevator was bought out for $4,000 and when the financial statement was published several weeks ago it showed that after our directors had paid the cost of management, set aside 10% in the reserve fund, paid 7% interest on the capital stock of $7,500, they had $5,800 left to divide among their members in proportion to the grain each member had sold or the commodities he had purchased. In other words, this Elevator paid all costs of management, 7% on the capital, 10% in the reserve fund—and then our members had left $1,800 more than the old Elevator cost them in the first place. And we could cite dozens of similar examples which show that the farmers of Missouri are sacrificing millions yearly to the present grain selling system. If you ship out as much as 80 carloads of corn, wheat and oats from your station yearly, then you need a Farm Club Elevator—and our State Association will gladly furnish complete instructions, articles of incorporation and also has in its employ a high class contractor who can invoice an old plant for you or furnish blue prints for a new one.

Other Splendid Features.

But this isn't all: Within the next year the Farm Clubs expect to organize their own Live Stock Commission Company at the National Stock Yards, Kansas City, and at St. Joseph, and thus save a goodly share of the hundreds of thousands of dollars we now pay out to the Live Stock Commission firms. Likewise, we expect within the next year to ask for a seat on the Merchants' Exchange in St. Louis so we may sell and buy grain at the Central market—another plan which involves savings running into the thousands. Perhaps as interesting as anything else however is the fact that within the next 60 days we expect to begin making and renewing farm loans through our County Secretaries and thus save all the local loan agents' bonuses and commissions for our members. The least commission the average loan agent charges is one-half of 1% for five years, while many charge 1% for five years. If they only make the former charge, it amounts to $250 on a $10,000 loan or $500 if they charge the latter rate—and if you have a loan coming due in the near future, wouldn't you like to save this margin through the Farm Clubs and get your money at 5½% net?

The foregoing is the "boiled down" story of the Farm Clubs. There are many other interesting features which we cannot discuss for lack of space but they can be had in our literature, which is free for the asking. If you expect to be in the market for flour, mill feed, farm seeds, commercial fertilizer or binder twine, you should call up your neighbors the moment you get through reading this article and ask them to join you in calling an immediate school house meeting. Then send for literature and complete instructions. The chances are we can put you in touch with some farmers nearby who belong to Farm Clubs and who will be glad to help you get started—for there are nearly 50,000 of them in Missouri.

Different From the Farm Bureaus.

In conclusion, the farmers of Nodaway County should not confuse the Farm Club Movement with the Farm Bureau which is now inaugurating a powerful membership campaign in different parts of the state. When the authorities of the College of Agriculture were recently asked to define the purpose of the Farm Bureau they frankly confessed that it was chiefly an "Educational agency" which supplements the work of the County Farm Agents—that being connected with the College of Agriculture and the Federal Department of Agriculture it cannot actively participate with the farmer in organizing and financing Grain Elevators, Produce Exchanges, etc., or in buying commodities at the wholesale price—that these are battles which the farmer must fight out for himself. Therefore if the farmers of your county want an organization that is educational that will enable you to hire a County Farm Agent or that will increase crop production, the Farm Bureau is alright and the Missouri Farmers' Association has no protest to make against it. On the other hand, if you want an organization that will "bring home the bacon"—that isn't tied to the apron strings of a state or federal institution and that will help you get a better price for your grain, live stock, poultry products and cream and through which you can obtain flour, feed, farm seeds, binder twine, fertilizers, coal, salt, automobile tires and tubes at the lowest wholesale price, then you need a solid Farm Club organization in your comunity at the earliest possible moment. Also there is this further difference between the Farm Clubs and the Farm Bureaus. The Farm Bureaus are now asking an annual membership fee of $5 per year for life in some counties, while in others the annual dues are $10 per year. On the other hand, the yearly dues in the Farm Clubs are only $2.50—and the farmer is not asked to "sign up for life." In other words, if, after a farmer has belonged to a Farm Club for a year he doesn't feel satisfied with his results, he is at liberty to drop out—and the best evidence that the Farm Clubs are "delivering the goods" is found in the fact that they are growing at a tremendous rate. And here again is another difference. With the Farm Clubs, the farmers do all the organizing—that is, when a Club is organized in one school district, its members help to organize Clubs in the adjoining districts. The Farm Bureau, on the other hand, employs paid organizers who receive $10 per day and their expenses—and of course this expense comes out of the farmers' pocket.

If, therefore, in view of the foregoing facts the farmers who chance to read this article would like to start the Farm Club Movement in their communities, they should immediately hold a consultation over the telephone or otherwise with their neighbors, agree on a date for a school house meeting and then write for literature and complete instructions—for there is no time to lose in placing orders for farm seeds, spring fertilizers, binder twine, etc. And remember this appeal comes to you from 50,000 of your fellow Missouri farmers who believe that the hour has arrived when the farmer should compel a "square deal" in the market—when he should have something to say about what he shall receive for the fruits of his sweat and toil—when he should no longer meekly pay the other fellow's price for the things he buys and accept the other fellow's price for the products of his soil and feed lots—and lastly that these things can be accomplished through an organization free from entangling alliances with state or federal institutions and one manned by bona fide farmers from top to bottom. Write for literature and complete instructions today to

Carrying a Ton a Mile for less than a Cent

Freight rates have played a very small part in the rising cost of living.

Other causes—the waste of war, under-production, credit inflation—have added *dollars* to the cost of the necessities of life, while freight charges have added only *cents*.

The average charge for hauling a ton of freight a mile is less than a cent.

A suit of clothing that sold for $30 before the war was carried 2,265 miles by rail from Chicago to Los Angeles for 16½ cents.

Now the freight charge is 22 cents and the suit sells for $50.

The cost of the suit has increased *20 dollars*.

The freight on it has increased only *5½ cents*.

Other transportation charges enter into the cost of the finished article—carrying the wool to the mills and the cloth to the tailors—but these other charges amount to but a few cents more.

A given unit of any commodity will buy more transportation now than it ever did before in the history of the country. A ton of steel or a bushel of wheat will buy more transportation now than ever before.

Walker D. Hines
Dir. Gen'l of Railroads

The $10 pair of shoes that used to sell for $5 goes from the New England factory to the Florida dealer for a freight charge of 5⅔ cents—only one cent more than the pre-war rate.

Beef pays only two-thirds of a cent a pound freight from Chicago to New York.

American freight rates are the lowest in the world.

The Use of a Savings Bank

While we are talking about USING a bank, let's consider its various departments.

The Savings Department may be used by anyone—even the smallest child—who has an extra dollar or two from time to time. The Savings Department takes these dollars—one or more at a time—and pays interest on them, thereby helping them to grow.

With these savings you may sometime be able to start in business, or you may use them for the payment of insurance premiums, taxes or other fixed expenditures or investments. Oh they may become a permanent fund to insure you against future poverty.

The Savings Department of the Farmers Trust Company can be of use to you in other and more personal ways, and it is always glad to help its patrons in any way. It is in charge of a lady, who will gladly be of any possible service to ladies or others who wish to use a Savings Department.

TERRIFYING DISCOMFORTS FROM SKIN DISEASES

Itching and Burning Eruptions Torture Victims.

If your skin seems ablaze with the fiery, burning and itching of Eczema, real and lasting relief can only come from treatment that goes below the surface — that reaches down to the very source of the trouble. Skin-diseases come from a disordered condition of the blood, and search far and near, you cannot find a blood remedy that approaches S. S. S. for real efficiency. S. S. S. has been on the market for fifty years, during which time it has been giving uniform satisfaction for all disorders for which it is recommended. If you want prompt relief, you can rely upon S. S. S. For expert advice as to the treatment of your own individual case, write to-day to Chief Medical Adviser, Swift Specific Co., Dept. 44, Atlanta, Ga.

GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

Musterole does it. It is a clean white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin.

Gently massage Musterole in with the finger-tips. See how quickly it brings relief—how speedily the pain disappears.

Use Musterole for sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

30c and 60c jars; hospital size $2.50

MUSTEROLE "DOES NOT BLISTER"

PIMPLY? WELL, DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there is no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do the work which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 10c and 25c.

MISSOURI FOLKS TESTIFY

Tina, Mo.—"I think that there are medicines on the market to equal Pierce's. After our baby girl came my wife was in a weakened condition and could not regain her strength. She took seven bottles of Dr. Pierce's Favorite Prescription and is well and strong. She says that she could not get along without it.

"I have used Dr. Pierce's 'Pleasant Pellets' for constipation for years—am never without them.

"I always recommend Dr. Pierce's remedies."—WM. E. REYNOLDS, Route 5.

St. Joseph, Mo.—"I have taken two vials of Dr. Pierce's Pleasant Pellets and will say that they are wonderful. I have taken other kinds of pills but must say that Dr. Pierce's Pleasant Pellets are the finest medicine I have ever taken for constipation. I feel like a different woman since I have taken them and shall recommend them to all that suffer from constipation. Also my husband says that he never saw a medicine like them; they have done him lots of good."—MRS. GRACE KENNARD, 1311 12th St.

Help for Married Women

Hannibal, Mo.—"In my early married life when in need of a tonic I found Dr. Pierce's Favorite Prescription to be just the medicine for my case. I am glad to add my testimony to the thousands of others who have been helped by this best of women's medicines."—MRS. MATTIE THOMPSON, 123 S. Eighth St.

Oh! Such Pain

Oh! Such Pain! dizzy—dragged-down with dull headache, backache—racked with pain here or there—poor woman, she is one of many. Usually she who feels the dragging-down or dizzy symptoms, or other pains caused by womanly disease, can be cured by Dr. Pierce's Favorite Prescription. It cures the cause of those pains. Ladies, jaded, tired, overworked, weak, nervous, delicate women are helped to strength and health by Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well.
